Purchase of Articles By Public Agencies

Correctional Industries exist primarily for providing a work-training program for inmates of the Department of Corrections. Our secondary and equally important purpose is to assist all state departments, institutions, and political sub-divisions of the state in securing their requirements to the extent that we are able to supply them.

Frequently Asked Questions

Q: What is ACI?

A: ACI is Al**a**bama Correctional Industries, a division of Alabama Department of Corrections.

Q: What does ACI do?

A: ACI utilizes inmate labor to produce goods and services that are sold to governmental entities within the State. The revenues generated go to offset the costs of incarceration and provide inmates with job skills and practical work experience that facilitates a successful re-entry into society upon their release.

Q: Who can buy from ACI?

A: Goods and services provided by ACI can only be acquired by those entities whose operational budgets are funded all or in part by tax revenues (e.g. state, county, and city governmental and educational organizations).

Q: Doesn't state bid laws require me to take bids on items over certain dollar amounts?

A: State agencies may purchase any amount of goods and services from ACI without competitive bidding. This saves time and money for you. In most cases, local government entities may also purchase from ACI without soliciting competitive bids. Please consult your local purchasing regulations if in doubt.

Q: If I qualify, how can I purchase from ACI?

A: Two ways:

1. You can contact our Sales offices at (334) 261-3600 for more information and to request that one of our salespersons come to see you.
2. You can personally visit our showrooms at 1400 Lloyd Street in Montgomery. Our sales staff will be glad to show you what we have to offer.

Q: Why should I buy from ACI?

A: While Alabama statute requires that State agencies purchase the goods and services that ACI provides, ACI prefers to market its products on the basis of exceptional quality at a reasonable price. Purchasing from ACI also helps fulfill our mission of providing meaningful work experiences for inmates. National studies have shown that structured inmate work programs reduce recidivism rates, which result in additional savings of tax dollars.

Q: Does ACI deliver?

A: Yes, ACI offers free shipping and installation or set up with every purchase (not just loading dock drop-off !!).

CAN YOU HEAR ME NOW?

The smart phone has made the lowly little cell phone into one of the most dedicated multitaskers in our lives. From checking e-mail to surfing the web and acting as a navigational aid, these little devices never get a day off. Unfortunately all that high-powered use is taking its toll on their batteries, and even the best cellphone provider can't keep us connected when the batteries are dead. Traditional chargers solve the problem, but they gobble up valuable real estate in electric outlets and leave snarls of charging cables in their wake.

The Wireless Power Grommet offers up a unique brand of "worksurface height power" as an alternative. The Power Grommet is a Qi-compatible charging pad that is embedded in the worksurface. It allows you to charge any Qi-enabled device wirelessly simply by placing it on top of the grommet.

The 4-inch grommet contains an LED light that indicates when the unit is charging and a 70" electrical cord, which is long enough to be run within the existing cable management features of any desking or systems furniture.

Because the Wireless Power Grommet is field-installed it can be integrated into existing worksurfaces that are at least 1¼" thick during installations or reconfigurations. An optional security bracket can also be easily installed to make the grommet tamper-resistant.

While only a limited number of mobile devices are currently manufactured with built-in Qi compatibility, that number has been on the rise since Qi's designation as the international standard for wireless charging. Many existing cellphone models can also be made Qi-compatible with removable covers or power sleeves, so while the Wireless Power Grommet may be a bit ahead of its time, *we can hear the demand for it Growing—can you?*

A-BASE STATIONARY TABLES

ATHENS™ TABLES

For thousands of years columns have been denoted places of gathering, where socialization and the exchange of ideas were encouraged. While there is no mistaking A-Table Bases for relics, their simple shapes are sure to make them instant classics.

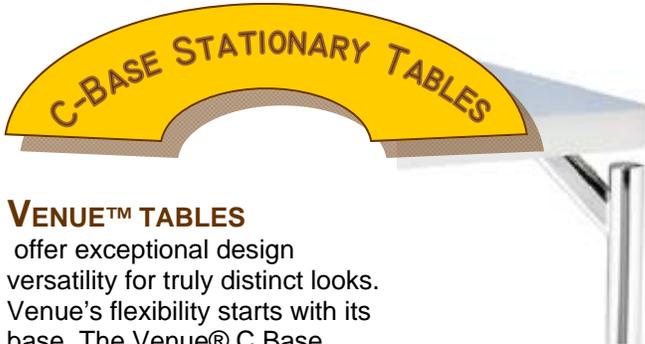

Available in a 29" standard seating height as well as a 42" café height, A-Bases can be used to add depth and visual interest to

community spaces and casual gathering areas.

Contemporary steel columns in 3", 4", and 5-1/2" diameters can accommodate tabletops from a cozy 24x24" square to an expansive 60" round, and easily coordinate with existing décor. Chrome and powder-coat finishes in a variety of colors allow these bases to fit in wherever they are invited. Base includes adjustable thermoplastic glides for additional stability on uneven floors, and the high-quality steel and cast aluminum materials provide durability that outlasts cast iron and closing time. A-Base tabletops come with bullnose vinyl t-mold edges.

VENUE™ TABLES

offer exceptional design versatility for truly distinct looks. Venue's flexibility starts with its base. The Venue® C Base

allows the top to "float" offering a void between tabletop and base. It will meet the aesthetic and functional needs of almost any room. Work surfaces provide another opportunity to customize Venue tables. An extended offering of sizes and shapes address the need for larger tables while finishes add just the right touch. **The trusted choice for beauty and durability.**

Favored by colleges and universities for decades, Venue tables continue to add beauty and grace to any setting, from conference rooms to lounges to libraries. Tabletops come with bullnose vinyl t-mold edges.

E-BASE STATIONARY TABLES

Designed With Durability In Mind!

BARRON™ TABLES

The tubular steel legs and columns are precisely cut and brazed for a look of seamless strength that is only enhanced by the optional chrome finish. In addition to the corrosion-resistant duplex chrome finish, all bases are available in dozens of powder-coat colors.

E-Base - A circular base and clean, brazed joints are the hallmark of the E-Base series.

Glide - Adjustable nylon-tipped glides resist marring on tile or vinyl flooring. Self-leveling guides are also available.

Folding Leg: T- and TT-legs can be ordered with a folding option. T-legs can also be ordered with a flip-top for more storage options. TABLE SURFACE has a 1-1/8" high-density particleboard core with high-pressure laminate top, phenolic back sheet and bullnose T-mold edge band.

See pages 18 and 19 for color selections.

MIX'EM AND MATCH'EM

Table Sizes And Shapes To Get The Configuration You Want!

Fit any room simply by changing table configurations. Whether for a meeting, training/workshop or a large conference, the versatility offered by *Tables Plus* makes it a cinch.

Interchangeable

With the number of shapes and sizes available, you have incredible latitude in versatility.

Easy to connect

It's easy to connect/disconnect our tables using the optional ganging mechanism.

Use you tables freestanding or butted together. This makes for quick setups/takedowns in a short time.

Increase or decrease seating capacity quickly. Combine tables for large meetings, separate for individual groups, testing or interviews.

Our ganging mechanism

allows you to quickly connect various shaped tabletops together.

4-Crescent Tables, 2-Rectangular Tables shown ganged together

Our ganging mechanism allows you to quickly connect various shaped tabletops together.

S-BASE STATIONARY TABLES

STATIONARY LEGS WITH FIXED OR ROLLING LEG BASES

SYNTHESIS™ TABLES

From start to finish Develop's S-Bases anticipate your needs. Extruded aluminum dual uprights give them a light look, but a sturdy feel. Polypropylene trim accents enhance the modern aesthetic, but take a back seat to function when wire management components are used with PowerUp® modules to bring power discreetly from floor to desktop.

T-legs showcase the bases' sleek design, offered in cantilevered legs for training, wide legs for conference rooms, X bases for cafes and lounges, and standard legs for just about anywhere else.

Ganging devices allow you to create custom configurations of multiple tables for meeting spaces, while rolling bases give you the freedom to reconfigure at will. S-Base tabletops come with bullnose vinyl t-mold edges.

Sizes and Styles Quoted Upon Request

STATIONARY LEGS WITH FIXED FOLDING OR ROLLING LEG BASES ANOTHER NOVEL IDEA

True to their name, Novel tables are striking... different... unusual. Novel is especially useful in a training environment, where tables need to be various configurations while allowing easy access to power and data. Outstanding functionality. Novel tables take a new look at table design and offer a whole new perspective. Great design. Great function.

Novel's fixed leg tables and rolling base legs provide a contemporary look and offer multiple design options. Arrange tables in traditional, linear layouts or innovative configurations. With square, round, rectangular, and trapezoidal models, you have incredible options with Novel.

Standard height is 29 inches, but like Novel's shapes, other options are available. Matching modesty panels are available on rectangular T-base Novel fixed leg tables with the standard folding mechanism or quick release. PowerUp® is an option that allows for easy access to power and data; a vital feature in today's computer-intensive business environment.

NOVEL™ Fixed • Folding • Flip Top Lightweight Tables

ARC™ Desk

Strong and durable, yet very, very simple. That's what makes the Arc Desk configuration so unique and so popular. The surface is sleek yet durable. The steel legs offer stability and strength and are specially designed for easy adjustability so you can customize your Arc Desk to accommodate various applications and user heights.

Made to be extremely utilitarian, it does include some conveniences that not only make the Arc Desk attractive, but also aid in keeping the entire room looking clean and organized. These

amenities include a modesty panel, a security panel, a backpack hook, **and an optional book tray.**

The Arc Desk is simply a basic table with not-so-basic durability and style.

**The frame is available only in Black.
At this time the top is available only in Kensington Maple.**

The durable backpack hook allows backpacks to hang neatly along the side of the desk, helping to create a clean, uncluttered room.

All-steel legs adjust from 22" – 32" to accommodate varying user sizes.

The optional book tray offers ample room for books and notebooks of all sizes.

ADJUSTABLE HEIGHT TABLES

Tough Tables. Easy Choice.

From finger painting to testing or training, this selection of activity tables meet your needs. They stand up to rigorous use and offer value plus an array of options.

Offered in a wide selection of shapes and sizes lets you choose the table that best fits your needs. Available in five shapes (rectangular, square, round, trapezoid, and kidney shape). **Legs with leveling glides are available in bright, duplex-nickel chrome Or twenty-five colorful, durable mar-resistant paint finishes.**

The adjustable legs are attach directly to the surface with

a unique one-piece keyhole. This method of attachment provides fast connection and greater strength. 1-1/4" o.d., 18-gauge seam-welded tubular steel. Telescoping lower section of tubular steel in bright chrome finish; locks with set screw in 1" increments in a 21"-29" height range.

Vinyl bullnose edge is securely attached to the table core. Edge won't peel off or pull apart and surface won't sag or warp. Tops are 1-1/4" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet.

LIGHTWEIGHT TABLES

The Ultralite™ Table

For attractive, lightweight, durable tables, look no further than the Ultralite line. Made from high-density polyethylene plastic, Ultralite Folding Tables are designed to hold up to heavy use, even in the most extreme conditions. These tables are easy to clean, easy to use, and easy to store, due to the innovative design of the folding legs.

These tables are easy to clean, plus easy to store. They are not only durable but also highly functional and are perfect for a variety of environments, both indoor and outdoor.

Easy set-up and storage provide flexibility for conference centers airport screening areas, schools, and healthcare facilities. Those involved with planning corporate or social gatherings, such as business luncheons or school functions, will appreciate Ultralite's extreme toughness, long ability to repel moisture. Plus, their surprising light weight makes handling Ultralite tables a breeze.

New Sizes Are Now Available

Ultralite tables also stack up favorably against the competition.

Not only do they cost less than folding tables with wood cores or laminate surfaces, they also perform in environments that wooden tables can't, like the outdoors. Weather-resistant features make UltraLite just as durable outside as they are inside. The grey polyethylene tops are impervious to water and contain UV inhibitors to prevent fading and sun damage. Black powder coating gives the steel frames a scratch-resistant all-weather finish that won't crack, chip or peel.

All Table and Chairs come with Black Framing and Speckled White high-density polyethylene plastic tops, seats and back. The picnic Table has Bronze Framing.

We even offer Chairs that match!

Users of all shapes and sizes appreciate the stability and strength of the 1-1/8" steel frame of Ultralite folding chairs.

Ultralite chairs are quick and easy to carry because of the innovative molded backs.

ALL-IN-ONE DESKING

The ALLINONE Desk

New Offer

The Solution The All-in-One Desk

Imagine a classroom that can be instantly converted from computer use to lecture use, and then back again. Classrooms can now be utilized all day and every day. All computer equipment and wires would be stored away within the desk. Equipment would be protected from damage and theft. When the computer is needed, the student

The Classroom of the Future – Today

Electric Flat Screen Lift Desks

Change a computer classroom into a regular classroom in seconds with the electric-powered All-in-One Desk. Simply press a button at the desk and watch the flat screen disappear below the worksurface to create a regular desk with plenty of work area. An optional keyboard and mouse holder eliminates the need for a pullout keyboard tray, thus improving classroom space utilization.

remains seated and pushes a button at the front of the desk. The flat screen, keyboard, and mouse rise automatically from inside the desk. Push the down button, and the desk will transform itself into a regular desk, with plenty of desktop work area.

Benefits:

- Latest technology for computer labs and training rooms
- Store the computer and wires neatly and safely
- Reduce equipment handling and loss
- Create a multi-use classroom
- Improve the student and teacher's line-of-sight

Electric Laptop Lift Desks

For laptop computer users, the electric-powered All-in-One Laptop Desk automatically stores the laptop under the work surface to create a regular desk with plenty of work area.

Electric Wheelchair Accessible Adjustable Desk

The electric-powered, wheelchair-accessible All-in-One Desk is available with a height adjustable work surface. All models meet the usability requirements of The Americans with Disabilities Act. Desk has a minimum width of 42" and a height range from 29.5" to 46"

Electric Lectern Desk

Perfect for instructor use, the electric-powered All-in-One Lectern Desk automatically stores the flat screen under the work surface when not in use, or the flat screen can be lowered to improve the teacher's line-of-sight. The All-in One Lectern accommodates a standing working height of 42".

Dual Function Remote Control

Instructors can even have complete wireless control over all of the classroom desks. Use the handset to raise or lower all the flat screens simultaneously. You can even lock the up/down switches at all the desks to prevent them from operating.

T-4™

FREESTANDING ADJUSTABLE DESKING

In today's ever-changing business environment, the ability to quickly adjust to new situations is a cornerstone of success. With employee turnover, temporary workers and multiple shifts being a reality for many businesses, the versatility of T-4™ Freestanding, Adjustable Desking is one of the best ways to keep up. The T-4 worksurfaces have the unique adjustability, from 22" to 41" in height, depending on table

style chosen, to accommodate any worker who needs to use the surface. This ensures an ergonomically sound environment in which the comfort of multiple users helps maintain efficiency and productivity. This adjustability can also help you reduce the life-cycle cost of your office furniture. Now, the individual user can adjust his or her own desk.

Perhaps most importantly, the T-4 adjustable work surfaces are built to last. Tighter specs and higher quality standards mean these desks are rock-solid surfaces that can handle large, heavy monitors and many years of use without wobbling, rocking, or shifting, extending the usable life of this furniture.

T-4 Freestanding Adjustable Desking is the perfect combination of flexibility, affordability and performance. These worksurfaces fit any office environment, making employees more comfortable and more productive.

Adjust height with ease on the crank adjustable tables. Sit or stand. Simply turn crank to easily raise or lower the desk. Height adjusts from 27"-43".

Pin adjustable tables adjust easily using a spring-loaded pin which pushes in so you can raise or lower table height and lock it back in place. Height adjusts from 24"-31".

Adjust height with the touch of a button on the electrically adjustable T-4 table. Height adjusts from 24"-51".

Dual worksurfaces adjust from 5" above to 5" below work surface height. Pneumatic gas cylinder assists in lifting motion and provides +/- 15 degrees of tilt.

The optional wire trough provides storage for all your wire management needs.

Stylish modesty panels can be ordered with or without wire management troughs.

Optional PowerUp® unit provides 2 receptacles along with 2 data/communication jack locations on the work surface. Retracts flush with tabletop when not in use.

****Chrome Legs Not Available For The "I" and "S" Leg Bases**

Powder-Coated Finish

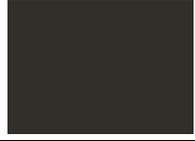

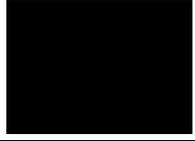

Epoxy powder coating is electrostatically applied. The dry coating is then fused and cured in a baking oven to form a smooth, continuous film. Finish is chemical-resistant, hard, tough and mar-resistant.

Bright Chrome Finish

Steel surfaces are duplex nickel-chrome plated in a twenty-two step process. This process is the same as is used in the automotive industry for exterior finishes.

CIMOS *Correctional Industries Modular Office Systems*

MODULAR OFFICE SPACE PLANNING & DESIGN

From one or more offices, to complete buildings, CIMOS can design the personalized offices and workstations that will meet your agency's needs.

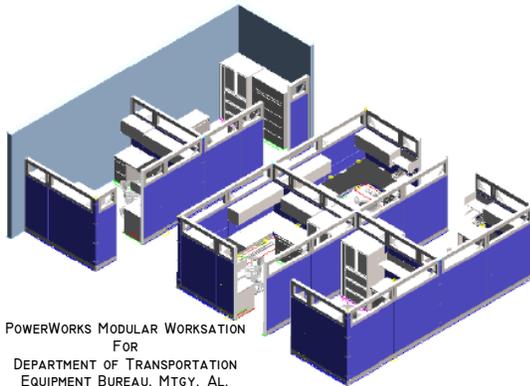

1. Contact our sales office at 1-800-ACI-7007 or Email acisales@doc.alabama.gov. One of our sales representatives will contact you to discuss your necessities and review your requirements and work with you on budgeting restraints.

2. They will ask you a few questions about your room and the number of workstations you require, take measurements, and determine any obstructions, e.g., light switches, fire alarms and equipment, etc. We will also accept any sketches/blueprints you may have available.
3. Tell them the style and type of workstation you prefer, and if you have any special filing/storage requirements or electrical/telecommunications needs. We also offer a wide variety of paper-management and computer accessories.

4. Our designers will take this information and prepare a complete proposal, including CAD Drawings, Bill of Materials, and pricing.

Upon your approval, our team of builders and installers will take over and give you the professional look you want and need.
